

TURN YOUR DAY AROUND...

# THE PERFECT THERAPY

**Hydrotherapy** to this day is the only recognized treatment that works as a *natural pain reliever*. In cases of joint problems and people with more severe disabilities, **hydrotherapy** is extremely beneficial for restoring normal functions of the body. Nordic's **DTS™ (Dual Therapy System - Back Massage and Turbo Whirlpool Therapy)** is the Perfect Therapy!

People who Hot Tub regularly, **FEEL BETTER**. Regular use of a **hydrotherapy hot tub** stabilizes your metabolism. This type of therapy automatically improves cardiovascular function and the respiratory system. More specifically hot water flowing over the body's muscle groups removes lactic acids and other contaminants from the muscle tissues, reducing pain.

The **physical benefits are numerous**; **Hydrotherapy** aids in pain management for arthritis and other rheumatologic conditions. Hot tub therapy is also said to improve blood sugar levels in patients with diabetes, lower blood pressure, and reduce symptoms in patients with multiple sclerosis, fibromyalgia, tendonitis, scoliosis, carpal tunnel syndrome and bursitis. This therapy aids the rehabilitation process in injuries and can even improve respiratory infections.

Stress relieving benefits are equally as important. **Stress reduction** is a proven medical fact with regular use of a hot tub. Although many features of soaking can calm feelings of stress, researchers have found that warm flowing water increases your body's natural production of endorphins, leaving you feeling relaxed and peaceful.

## THE **STAR** OF THE HOT TUB INDUSTRY

**SIMPLE ...** Over the last ten years the spa industry has complicated the original theory behind spas and hot tubs. For 30 years, the quintessential joy of hot tubbing was stress relieving, quiet, private, romantic and therapeutic moments away from the daily grind. Some manufacturers now offer over a hundred jets, three pumps, TVs, DVD systems, and fountain displays, just to site a few. What happened to the quiet, private, and **therapeutic hot tub time**? Nordic has not wavered in its focus on **Simplicity**.

**THERAPEUTIC ...** From the beginning, **Nordic** understood the buyers desire to "**feel better**" when using a hot tub. Soaking your foot in a bucket is hydrotherapy, as is sitting in a bathtub. Adding jets to the tub increases the therapeutic value. But as every athletic trainer and physical therapist knows, High Volume Circular Flow, "**Whirlpool**", is the superior form of hydrotherapy. Perfected in our round tubs and duplicated in the square models, **Nordic** offers superior **Whirlpool Therapy** in every model. We are proud to lead the industry in Therapeutic Spas for the home.

**AFFORDABLE ...** Bells and whistles can drive up costs; many features are added to grab attention in the showroom; glitzy features rarely add function. Most manufactures continue to use acrylic even though polyethylene shells are 10 times more durable. At **Nordic**, a lifetime warranty means more than a shiny shell. Nordic offers one of the most affordable line of spas without sacrificing quality.

**RELIABLE ...** Unlike price point spas that are popping up across the marketplace. **Nordic** has always relied on local dealers to sell the **Nordic** line. Throughout our history, building a **highly reliable** product has been our goal. We clamp and glue every jet water fitting in our line. Every component used in our spas is a proven industry leader. In fact, we use the same components found in spas that sell for two to three times our price. Lastly, we water test every tub twice, just to assure our dealers and customers that **Nordic's** reliability is second to none!

# INDUSTRY LEADING WARRANTIES

**NOTE:** Warranty details will vary for any product installed outside of the United States and Canada. See your Dealer for specific warranty limitations.

## **LIFETIME SHELL LIMITED WARRANTY:**

We warrant against the loss of water through the shell caused by defects in materials and workmanship for the lifetime of the original purchaser or as long as the original purchaser owns the spa. We warrant the shell material of the hot tub not to peel, crack, or delaminate resulting from a defect in the shell material for the lifetime of the original purchaser or as long as the original purchaser owns the spa.

## **THREE YEAR COMPONENT LIMITED WARRANTY:**

We warrant the electrical components, pumps, air valves, slice valves, and hot tub components against malfunction, leaking or defects in materials or workmanship for a period of three years from the date the original purchaser purchased the spa. Filter cartridges, light bulbs, filter covers, pump seals and cover locks are not included in this warranty, but are warranted to be free from defects in materials or workmanship at the time of delivery to the original purchaser. (Spa covers, ozone purification devices, LED components, jet replacement kits, 120V power cords and other spa accessories are specifically excluded from this warranty, although they may be covered by other warranties made by the manufacturers of such accessories. Please check with dealer for details.)

## **FIVE YEAR HEATER LIMITED WARRANTY:**

We warrant the heating element of the hot tub to be free of defects in materials and malfunction for a period of five years from the original date of purchase. Exclusions can be made in cases where improper chemical balance has been found to be the cause of failure.

## **THREE YEAR NO LEAK LIMITED WARRANTY:**

We warrant the hot tub not to leak for a period of three years from the date the original purchaser purchased the spa. This warranty specifically covers leaks from the wall fittings, jet fittings, internal plumbing, internal glue joints and all bonded parts including the filter compartment, and light lens, but it does not include any dripping from the hose connector if either the cap or gasket are not present, or other threaded connections are loose.

## **TEN YEAR Perma-Wood CABINET LIMITED WARRANTY:**

We warrant the Perma-Wood cabinet material not to peel, crack, wrinkle, blister or delaminate and to be free from defects in material and workmanship for a period of ten years from the spa's purchase date. This warranty specifically covers the cabinets structural integrity (exclusive of surface stain), including all glue and integral bonded joints. The Perma-Wood cosmetic finish is warranted to be free from defects at the time of initial delivery to the original consumer purchaser. Fading and weathering of the surface will naturally occur over time and are not considered warrantable defects.

## **ONE YEAR CEDAR CABINET LIMITED WARRANTY:**

We warrant the cedar cabinet (when applicable) to be free from defects in materials and workmanship for a period of one year from the date the original purchaser purchased the spa.

# THE **SERIES** LISTINGS

## **"ALL IN" 110V SERIES**

This value series is designed to be an easy "Plug N Play" hot tub while providing our exclusive \*DTS™ (Dual Therapy System™), the combination of high volume whirlpool flow and targeted direct pressure jets giving you the ultimate in hot water therapy. The "All In" 110 Series hot tubs have installed standard features usually found in top of the line models, such as: adjustable stainless steel jets, LED lighting, ozone, GFCI cord and our \*Nordic Wrap insulation.

## **CLASSIC SERIES**

This series is what started the Nordic Passion! Classic round hot tubs provide our exclusive \*DTS™ whirlpool therapy with comfort barrier free seating. These models will fit most any need from size to depth and accommodate those wanting a simple hot water therapy solution at the best value. Adjustable stainless steel jetting and an LED light are standard in this series. Most models are convertible for 110V or 220V electrical hook ups and \*MLP™ Mood Lighting Package is an option in this series.

## **MODERN SERIES**

This series contains different shapes and sizes to fulfill anyone's needs. With stylish and comfortable models, this series offers an array of seating capacity, depth, unique layout and all are convertible for 110V or 220V electrical hook ups. Whirlpool flow, \*DTS™, adjustable stainless steel jetting and an LED light are standard in this series. \*NLP™ Northern Light Package is an option in the Modern Series.

## **SPORT EDITION**

This series is for those that want more jet pressure in their hydrotherapy. These hot tubs are also found in the Modern Series but have increased horsepower to deliver the highest water flow available. Along with more hydrotherapy power, this series comes standard with our \*NLP™ Northern Light Package and adjustable stainless steel jetting.

## **LUXURY SERIES**

This series has all the features you want while keeping focus on simplicity and value. The hot tubs in this series have dual pump systems which provide the absolute best hydrotherapy available. Whirlpool flow \*DTS™, adjustable stainless steel jetting and \*NLP™ Northern Light Package are standard. Truly the top of the line and at a cost far less than the competitors, the Luxury Series value speaks for itself.

\*Nordic Wrap™ - An Eco-friendly, 2 ½" thick blanket that provides a durable, weather-resistant barrier in addition to our standard 2 lb. density foam.

\*DTS™ - Dual Therapy System™ is the combination of high volume whirlpool flow and targeted direct pressure jets giving you the ultimate in hot water therapy

\*NLP™ - Northern Light Package: LED Backlit Waterfall, LED Sconce Lighting, LED Jetting, LED Cup Holders, and LED Footwell / Side Wall Light.  
Optional upgrade on select "ALL IN" 110V Series and all Modern Series (MS), except Bella.

\*MLP™ - Mood Lighting Package: LED Sconce Lighting and LED Footwell / Side Wall Light.  
Optional upgrade on select "ALL IN" 110V Series, all Classic Series (CS) and Bella.
